HERE IS HISTORY relating to other town building enterprises: The Elyton Land Company, Birming enterprises: The Elyton Land Company, Birmingham, Ais., was incorporated in 1870 with a cash capital of \$100.000. The capital stock was then fixed at \$200.000. In 1883 a dividend of \$200.000 was decisted: 1884, 85 per cent; 1885, 45 per cent; 1886, 540 per cent; 1886, 200 per cent; 1886, 200 per cent; 1886, 200 per cent; 1886, 200 per cent, amounting in the accretate to \$5.570.000 paid in dividends in six years on an investment of \$100.000. The property is now worth probably \$50.000,000. Middlesborough, Ky., in two years became a city of \$,000, its own town company stock appreciated \$5.000 per cent on original cost. Many other examples could be mentioned.

Is IT RESILIENT?

We have received from the GORMULLY & JEF-FERY MANUFACTURING CO. a sample rim and tyre, illustrating their new pneumatic. It is an extremely neat and well-made article. It looks well and handles well. It has great resiliency—dropping the inflated tyre from a height of four feet, it rebounded to exactly three inches of the height from which it was dropped, showing that the amount of force lost is infinitesimal. The tyre is by no means heavy, indeed it is light, and the valve is simplicity itself. There is a non-return valve in the pump, and the air is kept in by cross pressure on the tube applied in an extremely simple and ingenious manner. —The Cyclist, Coventry, Eng.

TYPEWRITER PROCESS AT THE
FRONT!

By this process I am enabled to furnish Letters, Circulars, &c., an exact reproduction of the machine work, so that an expert cannot tell the difference. The consequence is that a personal receiving it thinks it a personal letter (which is often more impressive than a personal call), and he reads and considers your circular with the same attention as he would a personal letter. If this is so is it surprising I have achieved such success with it? That it is so I can demonstrate to any one in five minutes. If your business is not all you would desire I can guaranteed this will assist in developing it. Every one that has used it has been more than pleased. Having commenced with orders of 250, 500, and, in some cases, 1,000 copies, I am now printing two orders of 5,000 for representative firms here. THREE DAYS FOR THE SUBTREASURY BILL. There will be three days of fun in the House before the session closes, and the country will be given a chance to learn just what the representatives of the third party think of the sun, the moon and the universe in general. Messis. Watson, Simpson et al. have been for the past month or so raising their voices in an earnest appeal for a report on the pet measure of their party, the subtreasury bill. In a very short time this demand will be granted in the state of their party of their party. shape of an unfavorable report from the committee on ways and means. Further than this, the committee on rules has decided to allow three days in the House for debate on the bill as soon as the general ap-propriation bills have been disposed of.

TARIFF LEGISLATION POSTPONED. There is a tacit agreement existing between the democrats and republicans of the House that during the convention weeks no tariff legislation will be called up. A FINAL ADJOURNMENT RESOLUTION.

An important resolution offered yesterday by

Mr. McMillan and referred to the committee on ways and means provides for a final adjournment on July 4 at 2 o'clock. A BIG DAY'S WORK. Yesterday, so far as results go, was one of the most important days of the session in the House. Under suspension of the rules and with half an hour's debate a large number of important measures were disposed of. First of all the anti-option bill was passed, and then the river and harbor bill and the naval appropriation bill sent to conference.

minority report upon the subject of the effect of the tariff laws upon trade relations with Canada. Mr. McPherson presents statistics to controvert the conclusions reached in Senator Morrill's majority report and argues that producers of farm products in the United States have not be benefited by the McKinley tariff. Chairman Morrill also submitted a supplementary report, in which he contends that Mr. McPherson's statistics are worthless, and concludes by quoting the recent declarations of Lord Salisbury and Sir Charles Tupper in favor of retalistory protection. Died at the Age of 194.

For three months past Dr. S. L. Hannon, physician to the poor, has attended William Henry Harrison, an old colored man who lived at No. 230 Adams Express alley, and yesterday he died. His age was given at 104 years. During the time that Dr. Hannon has attended him the old man has told him many interesting stories of his acquaintance with George Washington and other noted Virginians of those days. From his conversation the doctor is of the opinion that his age is about that given. The deceased was born in Virginia and has lived here about twenty-five years. He never married. Being without the necessary funds to defray funeral expenses his remains were laid at rest in potter's field today.

Mr. Hale, in charge of it, explained that the anendments recommended by the committee on appropriations as to covoys extraordinary and ministers plenipotentiary were simply re-establishing the status under the existing law.

Mr. McPherson inquired whether the amendments had the effect of increasing the amount appropriated in the bill.

Mr. Hale said that where the Heuse had consolidated missions the amendments proposed to leave them as under existing law and that to that extent the appropriation would be increased. Those amendments were all agreed to.

All the amendments were all agreed to.

Increasing salaries of consuls general at London, Paris, Havana and Rio de Janeiro from \$5,000 to \$6,000.

The bill was then passed.

The Senate then proceeded to the consideration of bills on the calendar, and after passing time of their professions of confidence it is evident to any close obselves that the bill sides are suffering great anxiety. The Blarue 1-copie have been fighting all along to overcome a majority against them instructed whise it was thought Blaine would not run. The Harrison people have been struggling to hold certain delegates who were pledged to their candidate under a misapprehension as to Blaine's position. Mr. McKinley will get about thirty complimentary votes on the first ballot. Gen. Alger will get the solid delegation of Michigan and there will be other votes scattering, so that on the first ballot it is regarded as probable that Mr. Harrison will not have quite enough to nominate though he will have more votes than will Mr. Blaine.
